

OMNIS Compliance Evidence Report

the partly omniscient auditor

synthetic bench . 15 requirements . generated 2026-04-15

Abstract

OMNIS parsed 15 requirements from the synthetic policy set and linked 500 evidence records against them. The Omniscience Index, a weighted composite of evidence coverage, freshness, and confidence, is 92.4 out of 100, with an automation rate of 78.0%. 29 evidence records were left unmapped. The sections below give the per-requirement compliance status with its supporting evidence and freshness, followed by the data-quality findings OMNIS raised against the corpus itself.

1 Executive summary

Metric	Value
Omniscience Index	92.4 / 100
Automation Rate	78.0%
Requirements	15
Evidence records	500
Unmapped evidence	29
Status breakdown	12 partial, 3 gap

Figure 1. Compliance status across 15 requirements (12 partial, 3 gap).

2 Requirements

2.1 POL-ENC-001-R1 **PARTIAL**

Data Encryption and Protection. Confidence 0.29. 27 evidence records. Stale 18/27 (window 30 days).

SYN00023 · Access_Report · Approved · Vault-1/Path-69
SYN00030 · Screenshot · Approved · Vault-5/Path-72
SYN00037 · Policy_Document · Needs_Update · Vault-5/Path-87
SYN00046 · Encryption_Cert · Approved · Vault-4/Path-69

Requirement POL-ENC-001-R1 (Data Encryption and Protection) requires: All data at rest must be encrypted using AES-256 or stronger. The evidence conflicts. 5 record(s) support the control while 9 contradict it (rejected, stale, or low confidence), and 13 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 1 to 171 days. 18 of 27 record(s) fall outside the 30-day Monthly freshness window. Mean evidence confidence is 0.75; status confidence is 0.29. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.2 POL-ENC-001-R2 **PARTIAL**

Data Encryption and Protection. Confidence 0.56. 28 evidence records. Stale 4/28 (window 90 days).

SYN00022 · Audit_Log · Approved · Vault-2/Path-25
 SYN00106 · Training_Record · Approved · Vault-5/Path-79
 SYN00119 · Test_Result · Needs_Update · Vault-1/Path-54
 SYN00139 · Access_Report · Approved · Vault-5/Path-69

Requirement POL-ENC-001-R2 (Data Encryption and Protection) requires: Encryption keys must be rotated at least annually. The evidence conflicts. 14 record(s) support the control while 8 contradict it (rejected, stale, or low confidence), and 6 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 4 to 173 days. 4 of 28 record(s) fall outside the 90-day Quarterly freshness window. Mean evidence confidence is 0.80; status confidence is 0.56. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.3 POL-ENC-001-R3 **GAP**

Data Encryption and Protection. Confidence 0.00. 26 evidence records. Stale 26/26 (window 1 days).

SYN00013 · Configuration_Snapshot · Approved · Vault-1/Path-72
 SYN00056 · Test_Result · Approved · Vault-2/Path-82
 SYN00069 · Audit_Log · Needs_Update · Vault-9/Path-80
 SYN00077 · Test_Result · Pending_Review · Vault-9/Path-19

Requirement POL-ENC-001-R3 (Data Encryption and Protection) requires: Data in transit must use TLS 1.2 or higher. The linked evidence affirmatively fails to demonstrate the control. 15 of 26 record(s) are rejected, stale without approval, or contradicted. Evidence age ranges from 4 to 162 days. 26 of 26 record(s) fall outside the 1-day Continuous freshness window. Mean evidence confidence is 0.78; status confidence is 0.00. Recommended next step: Remediate the failing control and re-collect current, approved evidence.

Next step. Remediate the failing control and re-collect current, approved evidence.

2.4 POL-AC-001-R1 **GAP**

Access Control and Identity Management. Confidence 0.00. 24 evidence records. Stale 24/24 (window 1 days).

SYN00017 · Audit_Log · Approved · Vault-3/Path-83
 SYN00031 · Screenshot · Pending_Review · Vault-4/Path-65
 SYN00039 · Test_Result · Pending_Review · Vault-9/Path-57
 SYN00053 · Audit_Log · Approved · Vault-2/Path-30

Requirement POL-AC-001-R1 (Access Control and Identity Management) requires: Administrative access requires multi-factor authentication. The linked evidence affirmatively fails to demonstrate the control. 6 of 24 record(s) are rejected, stale without approval, or contradicted. Evidence age ranges from 4 to 143 days. 24 of 24 record(s) fall outside the 1-day Daily freshness window. Mean evidence confidence is 0.77; status confidence is 0.00. Recommended next step: Remediate the failing control and re-collect current, approved evidence.

Next step. Remediate the failing control and re-collect current, approved evidence.

2.5 POL-AC-001-R2 **PARTIAL**

Access Control and Identity Management. Confidence 0.54. 33 evidence records. Stale 6/33 (window 90 days).

SYN00044 · Configuration_Snapshot · Approved · Vault-8/Path-22
 SYN00051 · Screenshot · Approved · Vault-9/Path-87
 SYN00068 · Screenshot · Rejected · Vault-5/Path-37
 SYN00081 · Training_Record · Needs_Update · Vault-9/Path-88

Requirement POL-AC-001-R2 (Access Control and Identity Management) requires: Access must follow principle of least privilege. The evidence conflicts. 16 record(s) support the control while 11 contradict it (rejected, stale, or low confidence), and 6 are inconclusive. An auditor cannot rely on conflicting

evidence without reconciliation. Evidence age ranges from 1 to 152 days. 6 of 33 record(s) fall outside the 90-day Quarterly freshness window. Mean evidence confidence is 0.81; status confidence is 0.54. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.6 POL-AC-001-R3 **PARTIAL**

Access Control and Identity Management. Confidence 0.34. 29 evidence records. Stale 18/29 (window 30 days).

SYN00028 · Screenshot · Pending_Review · Vault-4/Path-5
 SYN00038 · Configuration_Snapshot · Rejected · Vault-6/Path-86
 SYN00070 · Policy_Document · Needs_Update · Vault-7/Path-80
 SYN00071 · Audit_Log · Approved · Vault-5/Path-58

Requirement POL-AC-001-R3 (Access Control and Identity Management) requires: Privileged accounts must have no personal use. The evidence conflicts. 6 record(s) support the control while 10 contradict it (rejected, stale, or low confidence), and 13 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 2 to 165 days. 18 of 29 record(s) fall outside the 30-day Monthly freshness window. Mean evidence confidence is 0.80; status confidence is 0.34. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.7 POL-AUD-001-R1 **GAP**

Audit Logging and Monitoring. Confidence 0.00. 31 evidence records. Stale 31/31 (window 1 days).

SYN00012 · Access_Report · Needs_Update · Vault-3/Path-42
 SYN00016 · Test_Result · Rejected · Vault-7/Path-79
 SYN00034 · Policy_Document · Rejected · Vault-6/Path-68
 SYN00083 · Encryption_Cert · Approved · Vault-5/Path-28

Requirement POL-AUD-001-R1 (Audit Logging and Monitoring) requires: All access to sensitive data must be logged. The linked evidence affirmatively fails to demonstrate the control. 14 of 31 record(s) are rejected, stale without approval, or contradicted. Evidence age ranges from 2 to 179 days. 31 of 31 record(s) fall outside the 1-day Daily freshness window. Mean evidence confidence is 0.79; status confidence is 0.00. Recommended next step: Remediate the failing control and re-collect current, approved evidence.

Next step. Remediate the failing control and re-collect current, approved evidence.

2.8 POL-AUD-001-R2 **PARTIAL**

Audit Logging and Monitoring. Confidence 0.30. 29 evidence records. Stale 20/29 (window 30 days).

SYN00009 · Test_Result · Pending_Review · Vault-5/Path-53
 SYN00018 · Test_Result · Approved · Vault-3/Path-23
 SYN00019 · Configuration_Snapshot · Approved · Vault-1/Path-8
 SYN00024 · Training_Record · Approved · Vault-5/Path-52

Requirement POL-AUD-001-R2 (Audit Logging and Monitoring) requires: Logs must be retained for minimum 90 days. The evidence conflicts. 8 record(s) support the control while 9 contradict it (rejected, stale, or low confidence), and 12 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 0 to 170 days. 20 of 29 record(s) fall outside the 30-day Monthly freshness window. Mean evidence confidence is 0.76; status confidence is 0.30. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.9 POL-AUD-001-R3 **PARTIAL**

Audit Logging and Monitoring. Confidence 0.07. 39 evidence records. Stale 35/39 (window 7 days).

SYN00004 · Policy_Document · Approved · Vault-5/Path-95
 SYN00010 · Audit_Log · Approved · Vault-3/Path-85
 SYN00011 · Access_Report · Approved · Vault-3/Path-27
 SYN00027 · Audit_Log · Rejected · Vault-9/Path-93

Requirement POL-AUD-001-R3 (Audit Logging and Monitoring) requires: Log access must be restricted and monitored. The evidence conflicts. 3 record(s) support the control while 16 contradict it (rejected, stale, or low confidence), and 20 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 3 to 175 days. 35 of 39 record(s) fall outside the 7-day Weekly freshness window. Mean evidence confidence is 0.76; status confidence is 0.07. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.10 POL-SOX-001-R1 **PARTIAL**

Financial Reporting Controls. Confidence 0.26. 31 evidence records. Stale 20/31 (window 30 days).

SYN00006 · Configuration_Snapshot · Needs_Update · Vault-1/Path-64
 SYN00008 · Test_Result · Rejected · Vault-9/Path-95
 SYN00036 · Audit_Log · Rejected · Vault-4/Path-49
 SYN00061 · Configuration_Snapshot · Rejected · Vault-7/Path-76

Requirement POL-SOX-001-R1 (Financial Reporting Controls) requires: Changes to financial reporting systems must follow documented change management with segregation of duties. The evidence conflicts. 4 record(s) support the control while 15 contradict it (rejected, stale, or low confidence), and 12 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 2 to 171 days. 20 of 31 record(s) fall outside the 30-day Monthly freshness window. Mean evidence confidence is 0.71; status confidence is 0.26. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.11 POL-SOX-001-R2 **PARTIAL**

Financial Reporting Controls. Confidence 0.48. 29 evidence records. Stale 1/29 (window 90 days).

SYN00003 · Audit_Log · Needs_Update · Vault-8/Path-47
 SYN00026 · Access_Report · Rejected · Vault-7/Path-53
 SYN00073 · Test_Result · Approved · Vault-1/Path-13
 SYN00087 · Configuration_Snapshot · Needs_Update · Vault-5/Path-63

Requirement POL-SOX-001-R2 (Financial Reporting Controls) requires: Access to financial data must be reviewed and certified each quarter. The evidence conflicts. 12 record(s) support the control while 9 contradict it (rejected, stale, or low confidence), and 8 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 0 to 135 days. 1 of 29 record(s) fall outside the 90-day Quarterly freshness window. Mean evidence confidence is 0.71; status confidence is 0.48. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.12 POL-HIPAA-001-R1 **PARTIAL**

Protected Health Information Safeguards. Confidence 0.21. 35 evidence records. Stale 30/35 (window 30 days).

SYN00020 · Screenshot · Needs_Update · Vault-7/Path-34
 SYN00021 · Configuration_Snapshot · Approved · Vault-6/Path-40
 SYN00045 · Configuration_Snapshot · Needs_Update · Vault-5/Path-70
 SYN00048 · Training_Record · Approved · Vault-4/Path-34

Requirement POL-HIPAA-001-R1 (Protected Health Information Safeguards) requires: Protected

health information must be encrypted at rest and in transit. The evidence conflicts. 1 record(s) support the control while 14 contradict it (rejected, stale, or low confidence), and 20 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 3 to 154 days. 30 of 35 record(s) fall outside the 30-day Monthly freshness window. Mean evidence confidence is 0.81; status confidence is 0.21. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.13 POL-HIPAA-001-R2 **PARTIAL**

Protected Health Information Safeguards. Confidence 0.01. 40 evidence records. Stale 39/40 (window 1 days).

SYN00002 · Audit_Log · Approved · Vault-2/Path-44
 SYN00014 · Screenshot · Approved · Vault-3/Path-73
 SYN00029 · Configuration_Snapshot · Pending_Review · Vault-5/Path-37
 SYN00049 · Policy_Document · Needs_Update · Vault-9/Path-34

Requirement POL-HIPAA-001-R2 (Protected Health Information Safeguards) requires: Access to protected health information must be logged with audit controls. The evidence conflicts. 1 record(s) support the control while 19 contradict it (rejected, stale, or low confidence), and 20 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 1 to 179 days. 39 of 40 record(s) fall outside the 1-day Daily freshness window. Mean evidence confidence is 0.76; status confidence is 0.01. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.14 POL-PCI-001-R1 **PARTIAL**

Cardholder Data Protection. Confidence 0.51. 42 evidence records. Stale 5/42 (window 90 days).

SYN00001 · Access_Report · Approved · Vault-5/Path-75
 SYN00007 · Access_Report · Approved · Vault-7/Path-68
 SYN00035 · Test_Result · Approved · Vault-9/Path-32
 SYN00041 · Configuration_Snapshot · Approved · Vault-3/Path-65

Requirement POL-PCI-001-R1 (Cardholder Data Protection) requires: Cardholder data must be stored only when necessary and rendered unreadable wherever it is kept. The evidence conflicts. 22 record(s) support the control while 11 contradict it (rejected, stale, or low confidence), and 9 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 0 to 177 days. 5 of 42 record(s) fall outside the 90-day Quarterly freshness window. Mean evidence confidence is 0.76; status confidence is 0.51. Recommended next step: Reconcile the conflicting records and retire the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

2.15 POL-PCI-001-R2 **PARTIAL**

Cardholder Data Protection. Confidence 0.09. 28 evidence records. Stale 24/28 (window 7 days).

SYN00005 · Screenshot · Needs_Update · Vault-9/Path-88
 SYN00015 · Screenshot · Needs_Update · Vault-4/Path-89
 SYN00025 · Configuration_Snapshot · Approved · Vault-3/Path-79
 SYN00054 · Audit_Log · Approved · Vault-1/Path-27

Requirement POL-PCI-001-R2 (Cardholder Data Protection) requires: Network access to the cardholder data environment must be restricted by firewall rules. The evidence conflicts. 1 record(s) support the control while 9 contradict it (rejected, stale, or low confidence), and 18 are inconclusive. An auditor cannot rely on conflicting evidence without reconciliation. Evidence age ranges from 1 to 169 days. 24 of 28 record(s) fall outside the 7-day Weekly freshness window. Mean evidence confidence is 0.77; status confidence is 0.09. Recommended next step: Reconcile the conflicting records and retire

the stale or rejected evidence.

Next step. Reconcile the conflicting records and retire the stale or rejected evidence.

3 Corpus integrity findings

Data-quality issues OMNIS detected in the evidence corpus and reported, rather than crashed on. Severity reflects audit impact.

3.1 orphan_requirement_refs **HIGH**

52 rows. 52 rows reference 52 requirement_ids absent from the 15 parsed requirements. Sample: ORPHAN-REQ-1377, ORPHAN-REQ-1402, ORPHAN-REQ-1460, ORPHAN-REQ-1504, ORPHAN-REQ-1756, ORPHAN-REQ-1823, ORPHAN-REQ-1893, ORPHAN-REQ-2247, ORPHAN-REQ-2259, ORPHAN-REQ-2339.

3.2 status_confidence_contradiction **MEDIUM**

24 rows. 24 rows are marked Approved but carry confidence_score < 0.6. Status and confidence disagree.
